BRIDGETTE KIMOTHO

JUNIOR FULL-STACK DEVELOPER

Nairobi, Kenya | kimothobridgette@gmail.com | 0716006225
Portfolio: copilot-b.vercel.app | LinkedIn: linkedin.com/in/bridgette-kimotho-46560532b

PROFESSIONAL SUMMARY

Junior Full-Stack Developer and Diploma in Software Development graduate with hands-on, project-based experience building responsive web applications. Comfortable working across frontend and backend technologies, including JavaScript, React, Vue.js, PHP, Laravel, and MySQL. Has developed an e-commerce application and a freelance management and invoicing application, and is continuing work on a Laravel-based Student Management System. Seeking a junior developer role or internship where I can contribute, learn from an experienced team, and build reliable, user-focused software.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Vue.js, Tailwind CSS, Bootstrap

Backend: PHP, Laravel, Node.js, Express.js, REST API fundamentals

Databases: MySQL, MongoDB fundamentals

Tools: Git, GitHub, Postman, npm, Vite, Visual Studio Code

Additional learning: Flutter, Dart

SELECTED PROJECTS

FreelanceFlow — Freelance Management & Invoicing App | **Completed**

Developed a freelance management application using Laravel, Vue.js, and Tailwind CSS. Focused on organizing client, invoice, payment, and dashboard workflows.

Technologies: Laravel, Vue.js, Tailwind CSS

TechHaven — Electronics E-commerce Website | **Completed**

Built a responsive electronics e-commerce website with product presentation and navigation designed for a smooth shopping experience.

Technologies: React.js, JavaScript, Tailwind CSS

Student Management System | **In progress**

Developing a Laravel-based application intended to organize student and school-related information.

Technologies: Laravel, PHP, MySQL

EDUCATION & TRAINING

Diploma in Software Development — Institute of Software Development | 2025–2026

Certificate in Software Development — Institute of Software Development | 2025

Certificate in Computer Literacy — Wanjura College | 2024

PROFESSIONAL STRENGTHS

Problem-solving • Adaptability and willingness to learn • Team collaboration • Attention to detail

CAREER OBJECTIVE

Seeking an entry-level full-stack or frontend development opportunity, including an internship, to apply my project experience and continue developing practical software engineering skills.
